## Your Christmas Newsletter

### This Month at Colet Mentoring

We've had a very busy month at Colet Mentoring, meeting some new and exciting Primary School Mentees, while continuing our sessions with the promising students in UK secondary schools and in South Sudan. We also have some new App updates!

### Primary Professors

Starting this month we were very excited to welcome 35 Primary Professors to our STEM enrichment program. So far they have broken cyphers, built rockets, and much more, but we were extremely excited to welcome them onto our Colet Mentoring app as well! This is the first time that primary school children have had the opportunity to interact with our mentors, and the feedback from both mentors and mentees alike has been amazing. The mentoring was so rewarding for many of our students that we hope to spread Colet Mentoring to many more Primary

schools in the future. Thanks to all those who were involved!

We'd also like to thank Bishop's Challoner Tower Hamlets and Mr Kisitsu-Ssekabira for their work this year, as their students have been terrific and our mentors have enjoyed working with them!
